

Why SPI?

New Hampshire
Sector Partnerships
Initiative

It all starts with **JOBS.**

WE'RE HIRING

HIGH PAYING JOBS
AVAILABLE!

CNC MACHINISTS!

HELP WANTED!

Employers have
a hard time finding
local talent.

Why?

There's a disconnect:
what businesses need vs. what's taught in schools

Public programs
and grants are started
to improve funding
and training...

This means some
businesses are solicited by many
different programs at once,

while some are left out
completely.

THINGS GET MESSY, FAST!

THAT'S WHERE SPI COMES IN

INDUSTRY-LED

partnerships let businesses address ongoing
workforce challenges and develop viable
solutions TOGETHER.

SPI connects businesses with
the right programs

Programs act as support for
industry-led initiatives

Businesses
lead the way
in these
five sectors:

Construction

Healthcare

Hospitality

Manufacturing

Technology
